FILING REFERENCE

CDPA-1999-0047-ENR · Routine Cycle
Review (Consumer Technology — Data

	Retention)
LEGAL AUTHORITY	FC Mun. Code §47-A, Art. 12 §§ 4(b), 7(a), 11 — Consumer Data Protection and Retention Standards Act, 1997; FC Mun. Code §12, Art. 3 § 2(c) — Right of Regulatory Access
ADVANCE NOTICE	This notice constitutes the required 48-hour advance notification as mandated under FC Mun. Code §47-A, Art. 12 § 9(d). No further notification will be issued prior to the review date.
SCOPE	Consumer session data retention practices, Echo product line (all series); data handling and deletion protocols; third-party data sharing agreements; compliance with maximum retention windows as defined under §47-A Art. 4

1. PURPOSE AND SCOPE OF REVIEW

The City Data Privacy Authority (hereinafter "the Authority") is conducting a routine compliance review of Nexkin Technologies, Inc. (hereinafter "the Facility") in accordance with the Consumer Data Protection and Retention Standards Act of 1997. This review is not investigative in nature and does not indicate findings of non-compliance at this time.

The review will evaluate the Facility's consumer data retention practices as they pertain to the EverNear Echo product line, including but not limited to:

- Session interaction log retention periods and deletion protocols
- User behavioral and emotional profile data storage duration

- Third-party data transfer records and consent documentation
- Internal data classification systems and access controls
- Compliance with maximum retention windows as defined under §47-A Art. 4 §§ 2–6

The scope of this review is limited to the data operations housed at the Ellis District facility. Off-site servers and cloud infrastructure are not subject to physical review under this notice but may be subject to separate documentation requests.

2. ACCESS REQUIREMENTS

The Facility is required to provide the Authority's designated inspectors with unescorted access to the following areas upon presentation of valid CDPA inspector credentials:

- Consumer data storage and server infrastructure sections
- Data intake, processing, and classification systems
- Deletion log archives and audit trail documentation
- Any physical documentation relevant to the above

A designated Facility compliance officer or representative must be available throughout the review period. Refusal to grant access or interference with the review process constitutes a violation under FC Mun. Code §47-A, Art. 14 § 3 and may result in administrative penalties not to exceed 50,000 Plat and/or referral to the Office of Municipal Enforcement.

FC Mun. Code §47-A, Art. 12 § 9(a): "Upon receipt of a duly issued Compliance Review Notice, the subject entity shall provide authorized inspectors of the City Data Privacy Authority with full and unrestricted access to all data systems, storage

infrastructure, and documentation relevant to the stated scope of review within the review window specified therein."

3. DESIGNATED REVIEW INSPECTORS

The following individuals are authorized to conduct this review on behalf of the Authority. The Facility should verify credentials against this notice upon arrival. CDPA inspector credentials are issued by the Office of Compliance Review and bear the Authority's validation seal.

INSPECTOR NAME	CDPA CREDENTIAL NO.	ROLE
[INSPECTOR NAME 1]	CDPA-INS-0847	Lead Inspector, Data Systems
[INSPECTOR NAME 2]	CDPA-INS-0848	Technical Review Specialist
[INSPECTOR NAME 3]	CDPA-INS-0849	Documentation and Records Officer

4. FACILITY RESPONSE REQUIREMENTS

Prior to the review date, the Facility is requested — though not required — to prepare the following for inspector access:

- Current data retention policy documentation (all revisions, last 24 months)
- Echo product line data classification schema
- Log of any data deletion events conducted in the preceding 90 days
- List of active third-party data sharing agreements

Preparation of the above materials is voluntary and will be noted in the Authority's review record as evidence of cooperative compliance posture.
